

Maher Atef Maher

Software Engineer

Egypt | maheratef600@gmail.com | +20 1205397285 | GitHub:maheratef74 | LinkedIn:maher-atef

Education

Sohag University, BS in Electronics and Communication Engineering (Grade: Good 74.47%) 2020 – 2025

Experience

Information Technology Institute (ITI) — 9-Month Trainee – Web & UI Track 10/2025 – 9/2026

- Undergoing intensive full-stack training focusing on front-end (UI/UX) and back-end technologies.
- Working on collaborative real-world projects to enhance technical and teamwork skills.

Claro — Backend Developer 07/2025 – 12/2025

- Developing scalable web applications using .NET, JavaScript, and SQL Server.
- Applying Clean Architecture and DDD principles for maintainable solutions.

Digital Egypt Pioneers Initiative (DEPI) — .NET Developer Trainee 04/2024 – 10/2024

- Built ASP.NET Core MVC and RESTful API projects using SQL Server and Entity Framework.
- Followed N-Tier Architecture and best coding practices to ensure clean, scalable solutions.

Projects

Motalebha (Delivery Platform) 1/2026 – present

- Engineered full-stack ordering platform using ASP.NET Core, SQL Server backend, and Angular with Tailwind CSS.
- Developed dashboards for Shop owners to manage products or orders and Admins to oversee platform operations.
- Built a real-time Courier dashboard displaying new orders, integrated courier reviews, and live order status tracking.
- Implemented interactive map functionality for customers to track the courier locations during delivery.

Schooly (Graduation Project Grade: Excellent) 10/2024 – 7/2025

- Built backend using ASP.NET Core Web API with Clean Architecture and CQRS
- Implemented AI facial recognition for lesson attendance and role-based access control
- Features: lessons, posts, video streaming (Agora SDK), homework, localization
- Added background jobs, email notifications, document management

Skills

- **Programming Languages:** C#, C++, JavaScript, TypeScript, SQL.
- **Backend Technologies:** ASP.NET Core (MVC, Web API), Node.js, Express.js, RESTful APIs, Entity Framework, LINQ.
- **Frontend Technologies:** Angular, React, Next.js, Vue.js, HTML, CSS, Tailwind CSS, Bootstrap.
- **Databases:** SQL Server, PostgreSQL, MongoDB .
- **Tools & Methodologies:** Git&Github, CI/CD, Clean Architecture, CQRS, OOP, Data Structures, Algorithms.

Achievements

- ECPC 2023 & 2024: Ranked top 20% and 22% of teams in Egypt
- Codeforces: Achieved Pupil rank by solving 1,000+ algorithmic problems

Languages

- Arabic (Native)
- English (Professional)
